

# GS Technology Sales Inc.

Proudly representing these Technology solutions to customers in Northern Illinois and Eastern Wisconsin.

**Accurate Circuits Inc.**  
[www accuratetectronics.com](http://www accuratetectronics.com)

Manufacturer of printed circuit boards with quick turn prototype and production capabilities. ISO 9002. Mil. certified printed circuit boards.

[www.accueng.com](http://www.accueng.com)

Advanced PCB manufacturing capabilities for military and consumer markets.

**Analog Technologies Corp.**  
[www.analog-tech.com](http://www.analog-tech.com)

Contract assembly with expertise in RF, Analog, Wireless, and Instrumentation. PCB assembly of through-hole, SMT, chip-on-board, BGA, u BGA and flip-chip. Quick-turn delivery.

**ANT Computer, Inc.**  
[www.antcomputer.com](http://www.antcomputer.com)

Industrial PCs, ISA, PCI, book PC, Panel PC with 12.1", 15" and 17.1" display sizes. Standard products in PC/104, EBX, 5.25" and 3.5" mini board PCs, ISO 9001.

**Payton Planar Magnetics**  
[www.paytongroup.com](http://www.paytongroup.com)

A design and manufacturer of planar transformers and inductors. Working frequency range from 50kHz to 3MHz. Reduced size and weight, high operating temp. range. Military and industrial temp. range.

**Nohau**  
[www.nohau.com](http://www.nohau.com)

In-circuit Emulation tools for most 8, 16, and 32 bit Microcontrollers.

[www.sophia.com](http://www.sophia.com)

In-Circuit emulation and debug tools for ARM, XScale, TI and many other processors. Evaluation and demo boards for PXA270 Processor.

## Tekmos

**Tekmos**  
[www.tekmos.com](http://www.tekmos.com)

ASIC design services, standard product replacement, customer configurable micros, serial configuration memories.

**Tracewell Systems** Provider of complete system solutions for VME, CPCI, VXI, PXI and ATCA architectures, including chassis, back planes, power supplies and cooling solutions. Provides custom packaging solutions for test, development and instrumentation. Custom power supply solutions.
